

HTML Exercises for Paragraph

Practices Exercise to implement

Exercise #1

Profile Summary

Exercise #1

Profile Summary

Profile Page

1. Now we know how to include paragraphs in a web page
2. Hence we can implement the sections highlighted in red outline.

Tommi Christensen
Freelance Full Stack Developer
Lucerne, Switzerland

About
Freelance Java Full Stack Developer with 3+ years of development experience. Comprehensive knowledge in developing web applications that consume RESTful API using Angular, HTML5, CSS, Bootstrap, Spring Boot, MySQL.

Skills

- Angular
- Bootstrap
- Spring Boot

Experience
Associate Developer | TrendX - Mar 2019 to Feb 2020
Developed end to end web application with technology stack of Angular, Bootstrap, Spring Boot, Spring RESTful Web Services, Spring Data JPA, MySQL and Microservices.

Education
Eidgenössische Technische Hochschule (ETH) Zürich | Bachelor of Computer Science | 2014 to 2017
Implemented Web Application for Crime Management.

About

Skills

Experience

Associate Developer | TrendX - Mar 2019 to Feb 2020

Developed end to end web application with technology stack of Angular, Bootstrap, Spring Boot, Spring RESTful Web Services, Spring Data JPA, MySQL and Microservices.

Education

Eidgenössische Technische Hochschule (ETH) Zürich | Bachelor of Computer Science | 2014 to 2017

Implemented Web Application for Crime Management

Implementation Guidelines

Step #1: Include Profile Summary

1. Open 'profile.html' in Brackets
2. Include paragraph tag after <h5> tag with a summary about yourselves
3. Refer sample code below (include highlighted section):

```
<h2>About</h2>
```

```
<p>
```

```
    Freelance Java Full Stack Developer with 3+ years of development  
    experience. Comprehensive knowledge in developing web applications  
    that consume REST API using Angular, HTML, CSS, Bootstrap, Spring  
    Boot, MySQL
```

```
</p>
```

Implementation Guidelines

Step #2: Include Experience

1. Open 'profile.html' in Brackets
2. After <h2> tag for 'Experience' include two paragraph tags
3. Include company name, role and duration in the first paragraph
4. Include role summary in the second paragraph

```
<h2>Experience</h2>
<p>
  Associate Developer | TrendX - Mar 2019 to Feb 2020
</p>
<p>
  Developed end to end web application with technology stack of
  Angular, Bootstrap, Spring Boot, Spring RESTful Web Services, Spring
  Data JPA, MySQL and Microservices.
</p>
```

Implementation Guidelines

Step #3: Include Education Information

1. Open 'profile.html' in Brackets from 'profile' folder
2. After <h2> tag for 'Education' include two paragraph tags
3. Include institution name, degree and duration in the first paragraph
4. Include project summary in the second paragraph

```
<h2>Education</h2>
```

```
<p>
```

```
    Eidgenössische Technische Hochschule (ETH) Zürich | Bachelor or  
    Computer Science | 2014 to 2017
```

```
</p>
```

```
<p>Implemented Web Application for Crime Management</p>
```
