

HTML Exercises for Title

Practices Exercises to implement

Exercise #1

Title for Profile page

Exercise #2

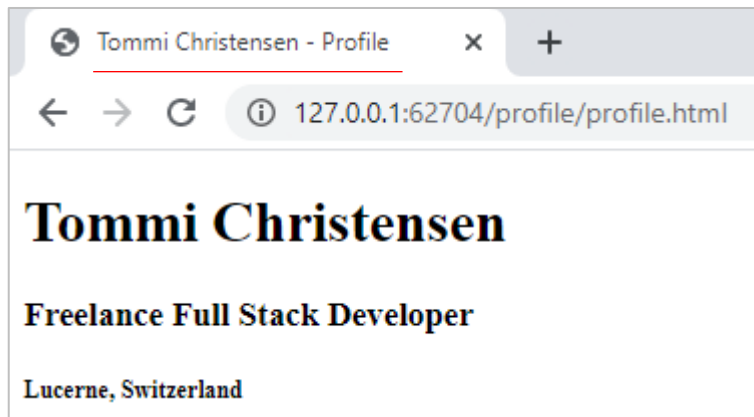

Title for Strat Hawk Pages

Exercise #1

Title for Profile Page

Title for Profile Page

Include title for profile page with First Name and Last Name.
Refer sample layout below.

Implementation Guidelines

1. Open 'profile.html' in Brackets from 'profile' folder
2. Include <head> tag within <html> before the <body> tag
3. Include <title> within head tag with your First Name and Last Name.

```
<head>  
  <title>Tommi Christensen - Profile</title>  
</head>
```
